

## **Military Protocol**

Base Cost: 10  
Skill Type: Warrior

Attribute: CSE  
Extra Dice: 3

A warrior with this skill understands the basic customs and structure of military groups. This skill does not give them any insight into the actual organization structure or specific knowledge, but they understand things like when to salute, what should be worn on a particular occasion, etc. This skill was designed to be incredibly generic and is simply for role-playing purposes. This skill should rarely allow a character to gain useful insight into an organization; it will simply allow them to function within one.
